

PRIVATE/PARAOCHIAL SCHOOL TRANSPORTATION

The Lake Shore Central School District provides transportation to and from private schools. The New York State Education Department has established a 15-mile door to door mileage limit as the criterion for eligibility. Parents considering transportation to a private or parochial school MUST contact the transportation department for a mileage audit PRIOR to enrolling their child in a school if they desire school bus transportation.

Once a parent has received confirmation from the Transportation Department that they are within the 15-mile range they must submit a letter requesting said transportation to the Superintendent of Schools annually by April 1st. Private/Parochial transportation is only available on the days when the home school district is in session with the exception of conference and staff development days when private/parochial transportation would be provided. Private/Parochial transportation also will not be provided during Lake Shore CSD “snow days”.
