

Attention Parents/Guardians:

We are glad to have more snow this winter than last winter. Students in Physical Education classes will now have the opportunity to enjoy snow shoeing in their PE class. This winter activity allows the children to enjoy going outside and participate in an activity that has become very popular. When it comes to calories burned, this activity uses more calories than any other activity you could think of.

Students in **Grades 1 – 5** will be participating in snow shoeing beginning on **Monday, February 2, 2009** for 2 weeks. So please be sure to send your child to school properly dressed for the weather on days when they have PE classes. In order to participate, they will need to wear winter coats, hats, gloves, boots and winter pants (i.e. warm ups, wind pants) if possible. Jeans if at all possible, should **not** be worn because when they get wet they stay wet all day long.

Any questions or concerns, please call Mrs. Pamela Beers – Physical Education Teacher at 926-2388.

Susan Ciminelli
Principal
Brant Elementary
