

Reminder about MS & HS Parent Access to PowerSchool

Monday, 20 October 2008

Last Updated Wednesday, 23 September 2009

Middle School and Senior High parents who would like to log into PowerSchool Parent Access will find the Parent Access page listed in the site navigation bar under Community. The information provided on the Parent Access info page with regard to Internet requirements has a link at the bottom of the page called Access PowerSchool.

Parents are encouraged to refer to the Parent Access Questions and Answers page which lists common concerns. Most problems can be resolved by referring to this information. If the problem continues, the "Get Support" link will allow you to send an email message. Please keep in mind for security reasons, responses and information is only sent via US Mail.

To date we have had over 3900 parent logins with an average number of parent logins at 78 per day. Parents report they find this very helpful and enjoy having this service available.
