

## DESKTOP PUBLISHING/WEB PAGE DESIGN D. GERKEN

### BON APPETIT MENU PROJECT

**Objectives: The learner will be able to:**

- **Insert, position, wrap, and size a graphic**
  - **Format and layer the graphic**
  - **Work with Microsoft Publisher**

Using the Microsoft Publisher Menu Wizard, create a **Daily Specials menu** and a **Take-Out Menu** for a theme restaurant. You should use the items listed below and only the items listed below. You are to come up with descriptions of each food item and creative names for each of the items. For example, if I used a golf theme, I might have the *Lob, Chips, and Slice* as the creative name and “Lots of Beef – Loads of Barbecued Beef teed up on a Kaiser Roll, served with potato chips and a pickle slice” as the description. The Daily Specials menu must fit on one page, while the Take-Out menu will be printed on a front and back. You can enhance a specific item (specify special toppings, sauce, etc.) You must include at least 3 graphics. We will print a black and white copy and a color copy. You may also use a border or page border to enhance your product. **Daily specials menu should include 1 appetizer or soup/salad, 1 entrée, 1 pasta dish, and 1 beverage. Desserts menu should include all the items listed on assignment sheet.**

#### Take Out Menu

Category	Points Possible	Points Awarded
All items included	30	
Creative names	10	
Consistency	25	
3 graphics	10	
Proper layout	25	
<b>Total</b>	<b>100</b>	

#### Daily Specials or Desserts Menu

Category	Points Possible	Points Awarded
All items included	50	
Layout	25	
Consistency	25	
<b>Total</b>	<b>100</b>
